EDUCATION

Arka Jain University
Jamshedpur, India   **2023 - 2026**

Bachelor of Computer Applications

SKILLS

- **programming Languages: HTML/CSS, Java, Python, C**
- **Soft Skills: Leadership, Communication, Teamwork, Problem-Solving**
- **Language Known: English, Hindi**

EXPERIENCE

Hackathon Participant – Cyber Report Shield   **April - 2025**

Virtual Police Station for FIR Filing and Case Tracking :

- Co-developed **Cyber Report Shield,** a full-stack web application enabling users to file FIRs and track case status in real time.
- Implemented core functionalities including Aadhaar-based OTP authentication, photo/video evidence upload, and interactive "Learn More" modules to guide users.
- Utilized technologies such as **HTML, CSS, JavaScript, MongoDB, Node.js, Express.js**, and version control with **Git/GitHub** to ensure agile, collaborative development.

CERTIFICATIONS

- Computer Communications by University of Colorado System– Sep'25 ([link](#))

- An Introduction to Programming the Internet of Things (IOT) by University of California, Irvine– Feb'25 ([link](#))

ACHIEVEMENTS

Hackathon Recognition
National-Level Hackathon | April 2025
- Selected and participated in a prestigious national-level hackathon, collaborating with a team to design and develop Cyber Report Shield — a full-stack web app for online FIR filing and real-time case tracking.
- Project emphasized secure Aadhaar-based login, evidence submission, and intuitive case status updates, receiving positive feedback for innovation and usability.
